Design, calculations and manufacturing  
of **Storage Systems**

## CANTILEVER

The **Strength** of simplicity

We have a background of more than **50 years of knowledge** in the design and manufacturing of Storage Systems. We have consolidated and strengthened our position based on the humility and freshness of a young and specialized team, which added to our latest generation technologies, makes **ESNOVA** enjoy the trust and confidence of our worldwide customers.

WE EXPORT TO OVER THAN **35 COUNTRIES**

## EXPERIENCE

We have a large group of professionals with a long career in the logistics sector.

Design, calculations and manufacturing of **Storage Systems**

We can give you an efficient and direct response. We count with a large variety of references in stock for delivery in a few days and we adapt to special requirements for any type of business and storage. From the lightest shelving to the most sophisticated automatic storages.

We always offer efficient storages by studying each case and adapting the best solution for it:

- Optimize the available space.
- Increase storage capacity.
- Make the square metre of storage more profitable.
- Provide a more logical order for easy location and greater protection against damages and losses.
- More security for staff and facilities.
- Generate higher productivity in operations and resources.
- Offer a better service to our customers.

## SOLUTIONS

Industrial racking/shelving to store all types of products. Light, medium and heavy loads, palletised loads, big loads...

Standard Pallet Racking, Drive-in Racking, Cantilever, Rack-clad storage systems and automatic systems, Long Span racking, Boltless shelving (Riveto), Multi-tier shelving, mezzanines, metallic containers. All of them formed a great range of storage solutions which, together with our experienced team, will solve your storage problems with quality, safety and lower cost.

## Technology

Our machinery at your service. We are equipped with the most flexible and advanced production systems for the design and manufacture of parts, components and competitive metal products.

## Lab Tests

We have a Testing Laboratory where the performance of all different components of each system is verified by testing loads, resistance, buckling ...

## Innovation

Innovate to improve, both in **new products** and in the optimization of existing products.

## Quality

Esno

va sets as a priority the quality standards in each and every one of the processes it develops.

- Certificate in the quality management system (ISO 9001).
- Certificate in the environmental management system (ISO 14001).
- Certificate in the occupational health and safety management system (ISO 45001).
- UNE EN 1090 Certificate of CE Marking.
- Member of the European Federation of Maintenance FEM/AEM.

## CANTILEVER

- It is a storage system designed for loads which have great volumes or lengths. This type of system is perfect for storing wood strips, boards, tubes of different materials, profiles, etc.
- It can have multiple configurations, depending on the storage necessities, which gives a great warehouse management flexibility:
  - The arrangement of loads could be horizontal or vertical.
  - It can have simple or double structure.
  - It can be used for heavy or light loads.

# CANTILEVER RACKING

A shelving designed for supporting **heavy loads** of great lengths or volumes.

Standard dimensions							
Column height CAB medium loads (H*)	2500	3000	3500	4000	4500		
Column height CA large loads (H*)	4000	4500	5000	5500	6000	6500	7000
Arm length (L*)	600	800	1000	1250	1500		

\*Dimensions in mm.

SIMPLE DOUBLE

## LIGHT CANTILEVER

A system for storing **medium and light loads** of great lengths or volumes.
